PERFORM.

CANCOM

Azure FastStart Service

Accelerate your transformation with Microsoft Cloud

Are you ready to embrace Microsoft Cloud?

Do you have a strategy to adopt Azure, Microsoft 365 or the Enterprise Mobility + Security Suite?
Are you struggling to understand where to start?

Starting out with Microsoft Cloud

Embracing a Microsoft hybrid cloud solution can often be quite daunting and a challenge to many IT organizations. Through our wealth of experience we've created a service that delivers the base configuration of an Azure environment back in with a standardized approach.

Approach

We've developed proprietary software to help accelerate the deployment of the foundations for Azure. In addition, the service will be delivered by a highly skilled Azure consultant who will cross-train your team in the process.

Key Benefits

IT becomes an enabler for cloud adoption and innovation

Removes the lead time and complexity of setting up Azure

Provides a hybrid identity solution to build upon

Ensures best practices for security and Azure principals are adopted

Helps address internal skills gaps with new cloud technology

Deliverables

CANCOM Expert onsite

CANCOM Azure build IP

CSP contract (if required)

Azure Strategy Workshop

What's included?

As part of this service we'll setup and configure the following components:

Subscriptions

Configuration of the Azure subscriptions and public namespaces

Identity

Configuration of Azure Active Directory and federation services to setup hybrid identity ready for consumption via Microsoft cloud services including Azure and M365

Security

Configure the Subscription and tenant security policies including resource groups and based network security groups

Storage

Configure base storage accounts ready for resources to be placed in storage containers

Networking

Configure a site to site VPN for secure hybrid cloud operations

Processes

Define role based access and administration models for the Azure tenant plus follow up the delivery work with an onsite strategy workshop
